

CiDA Revision

Year 11 Revision List

You will not have an official mock in this subject. Your official external exam is in January. Ensure you use this revision checklist.

Consistency

- [] Defining a site on Dreamweaver! IMPORTANT
- [] Set page size and resolution in Dreamweaver e.g. page size should be 1024 x 1000 pixels
- [] Create new pages in Dreamweaver and have it saved as .html after the page name
- [] Making all the pages consistent – (using the master page on Dreamweaver/Template)
 - [] Colour scheme of pages
 - [] Design of pages
 - [] Buttons on pages
- [] Use a standard set of fonts and sizes
- [] Insert table in Dreamweaver
- [] Adding a navigation bar on every page
 - [] Left hand side or at the top of the page

Composition and Page Design

- [] Internal hyperlinks – links to other pages in your website
- [] Creating an anchor
- [] External hyperlinks – links to other websites
- [] Hotspots/Graphical links
- [] Creating rollover buttons
- [] Adding images to buttons
- [] Thumbnail images
- [] Make sure that only images of a certain size are used from the ASSETS folder as specified in the exam paper. E.g. Only png images and each individual image must be less than 250 KB
- [] Converting images to the required format. Eg. Jpg to png
- [] Editing Images
 - [] To a percentage of the original
 - [] Fixed size
 - [] Crop
 - [] Adding text to images
- [] Crop images in Fireworks/Photoshop
- [] Adding a banner on a page
- [] Create and use tables inside tables on the webpage
- [] Adding audio to the webpage
