

Changes to Tech Awards Qualifications Points Calculation

16 August 2019

Dear BTEC Tech Award Student

I am writing to you to let you know that we have made necessary changes to this year's grade points table for BTEC Tech Award qualifications. This table is printed within the qualification specification, and is provided below to illustrate these changes.

Making the adjustment to the grade points table provides qualification outcomes that are fair and have equal value to other Level 2 qualifications. This means your qualification will retain its value and you will be able to cite it confidently when applying to further study or employment.

Qualification Grade	Points now required	Previous points required
L1P	30	30
L1M	44	43
L1D	58	56
L2P	72	69
L2M	95	82
L2D	105	95
L2D*	114	108

We realise that you may have a college place offered to you based on the previous points table. If this is the case, we advise you to use this letter to explain to the admissions office that Pearson has adjusted the qualification grade points table, and that your component assessment grades are accurate and reflect your achievement of the criteria that was being assessed.

If you have any concerns or queries, please speak to your teacher in the first instance. They can also contact us on your behalf, if needed.

We wish you every success for the future.
